Short name: **LightCOM**

SOP title: **Standard Operating Procedure for filling in the CRF
for clinical investigation days (CID) in the LightCARE,
LightWAY and LightBAR trials in Denmark and the UK**

SOP short title: **SOP on CID eCRF**

SOP Version: **1** Date: **09.04.2024**

Authored by: **Sabrina Wielsøe** Date: **04.04.2023**

NAME OF PROCEDURE:

Standard Operating Procedure for filling in the eCRF for the CIDs in the LightCARE, LightWAY and LightBAR trials in Denmark and the UK.

1 PURPOSE AND APPLICABILITY

This document outlines the standardized procedure for filling in the eCRF (electronic case report form) in the LightCARE, LightWAY and LightBAR trial for the screening and clinical investigation days. The eCRF will be filled in by investigator/staff personnel, for some questions in collaboration with the participants.

2 PERSONNEL QUALIFICATIONS AND RESPONSIBILITIES

The staff personnel must have read and understood this SOP and been trained in filling in the OpenClinica eCRF system.

3 EQUIPMENT AND RESOURCES

1 Equipment

Online access to the eCRF in OpenClinica with authorization to the Screening and CID data.

3 PROCEDURE

Access to the eCRF

Once a user profile has been created by the trial manager you will receive an email notification with log-in details. Each user-profile will be assigned specific task which are related to a certain role in the trial, thereby insuring blinding of CID personnel.

If the Trial staff have access to multiple sites, he/she can change between site by clicking on the green "Change Site" found in the top panel. This will redirect the user to a new page the applicable site can be chosen.

3 Forms and Events

The eCRF documents the CID for both the intervention and usual care groups of the trial. The eCRF is filled in by the investigator who has contact with the participant during the CID some parts are filled in in collaboration with the participant. The eCRF consists of several different forms.

Create new participant by clicking on the button “Go to Patient Screening”

4 Pre-Screening (LigthBAR only)

Pre-Screening should be used of the investigation to track the number of declines and participant who are interested in participating.

Only potential participants who have received the participant information (in paper or verbal) and in continuation for that either accepted or declined participation to the trial staff (in person or by telephone) should be registered.

DK only: If a participant decline invitation, he or she should be ask if a independent researcher may contact them in order to understand the thoughts and reason behind the decision.

“Vi er i gang med at lærere hvilke faktorer der har betydning når man skal træffe beslutning om at indgår i et forskningsforsøg som dette. Vil det være okay hvis en af mine kollegaer kontakter dig med henblik på en lille telefoninterview. Interviewet har ikke til formål at få dig til at ændre mening, men skal i stedet hjælpe os med at forstå tankerne bag dit valg.”

If the “participant” accepts a telephone interview, this is noted together with a comment of how the “participant” wish to be contacted. Openclinica will when send a note to the research responsible for the interview and they will contact the “participant”.

And the Trial Staff who performed the screening sends the following documents to the “participant”:

[10 - LightBAR - Deltagerinformation - fravalg af forsøgsdeltagelse, version 1.0, 17.01.2024.pdf](#)

[11- LightBAR - Samtykkeerklæring, interview af fravalg, version 1.0, 17.01.2024.pdf](#)

When a form is submitted where the “participant” decline the study, the record will be remove from the site.

5 Screening

Screening is filled out with answer from the participant.

Once filled out SC07 “Weight (measured on site)” will be used for calculation of the BMI and will overrule SC06 “Self-reported weight”.

Please check the [info] for rules and criteria for specific questions, and answer accordingly.

Once all questions are answered OpenClinica will inform the investigator whether the participant is eligible or not.

6 5.2.3 Scheduling

Once the screening form is filled out and participant is eligible you can schedule the first CID.

Once you have scheduled the First CID, this specific form for this appears.

Each part will be explained below.

Once a participant has been randomized the remaining scheme can be filled out and appointment booked accordingly. OpenClinica will send reminder 14 days prior to following CID to the investigator and an email with link to Patient reported outcome to the participant.

7 5.2.3 Background Data

Background data is filled out at the first CID. Once this section is filled out the participant can get an email notification with access to the Taparga System for answering Patient-reported outcomes. Please note at CID 1 Patient-reported outcomes should be filled out before randomization.

8 5.2.4 Repeated forms

The remaining forms is repeated at the following CID.

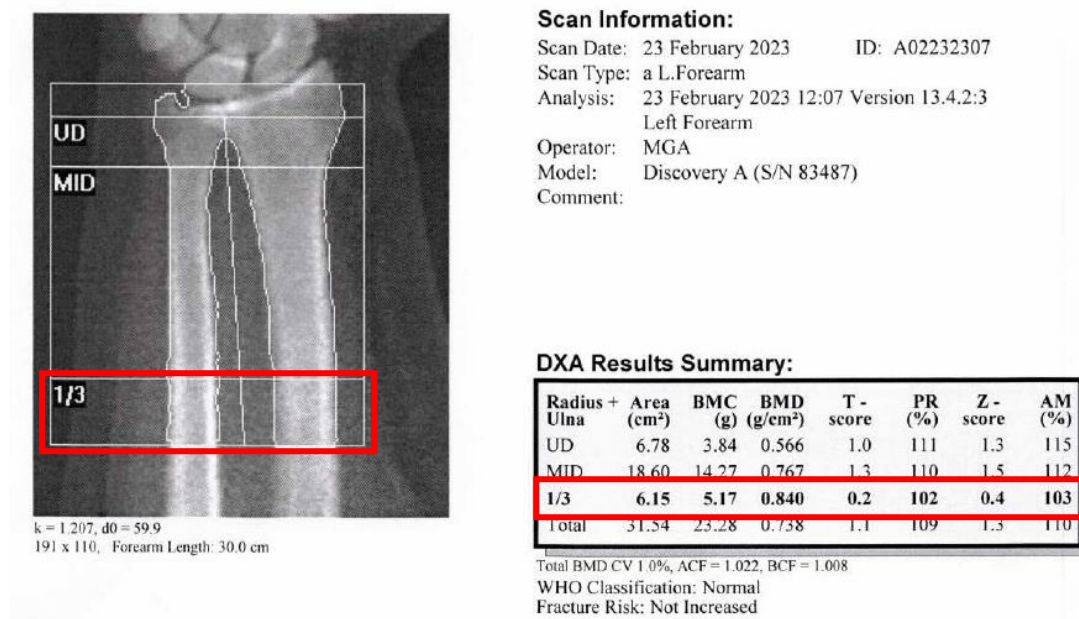

Sociodemographic (CID 1 - 4) and Health economics (CID 1 - 4), Serious adverse events of specific interest (CID 1 - 4 LightBAR) are all filled out in collaboration with the participant. The Questions are asked during the CID by the investigator who note the participants answer in the eCRF, medical records can be used where possible.

5.2.3.1 Tests

DXA, Physical Function, Blood samples and other biological samples are filled out based on the test result during the CID.

Please make sure to read [info] were available before filling in the data.

For the regional scan measuring the bone mineral density in the non-dominant underarm (LightBAR only) please see the following example from a scan and the data of interest (marked with red).

9

10 5.2.3 Misc

Forms for Withdrawal, Protocol deviations, Serious adverse Events can all be found under the Event Misc.

11 5.2.3 Patient Reported outcomes

By clicking on the CID1-4 [participant] it is possible to see if the participant has filled out the patient-reported outcome. These should be completed before the participant leaves the giving CID.

Participant ID ▾	Name	NIN	Enrolment Date ▾	Screening	CID1	CID1 [participant]
UK01_1055			11-03-2024			
UK01_1054			11-03-2024			

4 DATA AND RECORDS MANAGEMENT

All data will be recorded by the investigator at the CID during or immediately after the CID.
